SKILLS & CERTIFICATIONS

Programming Languages: Python (Intermediate), Java (Intermediate), JavaScript (Expert), CSS (Expert), HTML (Expert), C++ (Expert)

Framework & tools: React, Node JS, PowerBI, SQL

Certifications: Machine Learning 1 (AMII, 2023), Machine Learning 2 (AMII, 2023), AZ-900: Microsoft Azure Fundamentals (expected: February, 2024), SC-900: Microsoft Security, Compliance, and Identity Fundamentals (expected: March, 2024), AI-900: Microsoft Azure AI fundamentals (expected: February, 2024)

EDUCATION

Bachelor of Science in Computer Science **Sept 2021 - Present**

University of Alberta, Canada, Expected Graduation: May 2026

- **Relevant Coursework:** Data Structure & Algorithm, Python, Java OOP, Computer Organization and Architecture, Calculus, Statistics, Linear Algebra
- Enrolled in Science Internship Program

Front End Web Development Bootcamp **Aug 2023 - Present**

Freemote

- Learned fundamentals of front-end development and developed proficiency in HTML/CSS, Javascript & React

PROJECTS

Change In The Ocean **Jun 2023**

- Developed and presented a user-friendly front-end webpage using HTML, CSS, and JavaScript during a hackathon to 100+ audience member
- Implemented the React framework to enhance interactivity and user experience to showcase the importance of ocean conservation

Nike Shoe Website **May 2023**

- Developed a dynamic user-friendly website with two team members using JavaScript and the React framework
- Presented the project's features, functionality, and the interface for browsing Nike shoe products to 40+ developers, showcasing the importance of an interactive web experience

Ring Buffer Queue System **Feb 2023**

- Created a dynamic ring buffer system in C by implementing key data structure algorithms to effectively process input files and to optimize system performance
- Improved significant efficiency of the system using two different separate queues, implementing essential queue operations within this structure.

VOLUNTEER & LEADERSHIP EXPERIENCE

Google Developer Student Club **Sept 2023 - Present**

Active club Member, Edmonton, AB

- Played an active role in organizing technological events, including workshops and coding sessions, connecting 70+ UAlberta students with various tech companies and clubs

Space Exploration Alberta Robotics (SPEAR), University of Alberta **Sept 2023 - Present**

Software Team member, Edmonton, AB

- Implemented and developed various tools with a team of 10+ members, to optimize the efficiency of a rover using python

Youth Science Innovation Program(YSIP) **Sept 2022 - May 2023**

Vice president of Events, Edmonton, AB

- Led a team of 4 individuals to organize 16+ events across schools in rural towns focusing on promoting and fostering science within middle school kids
- Designed and executed live science experiments and workshops within classroom setting
